

# BACKYARD TURTLES

Clemsonboxturtles.com

## HAVE YOU SEEN A BOX TURTLE WITH A QR CODE?

At Clemson University, there is an ongoing Creative Inquiry Research Project called "Backyard Turtles". We are trying to gather information on our local Eastern Box Turtle population. If you see an Eastern Box Turtle with a QR code on it, scan it!

**SCAN ME**

## HOW CAN YOU HELP?

### SCAN A TURTLE

Interested in helping the project? If you find a Box Turtle that has a QR code, scan it! You will be directed to our website where you can tell us about the turtle you found. By doing so, you are contributing to collecting data for this project!

### TELL A FRIEND/SHARE

The next step you can take to help this project is by telling a friend! The more people who know about Backyard Turtles, the better. You can also share this flyer on social media to help spread the word!

### PRACTICE BACKYARD ECOLOGY

Still want to help? Making your backyard turtle friendly is a great way to help all Box Turtles, as well as other native wildlife. Check out our website for more information on how to do that!
